Reference:
1448 Main Street
Rabobank

Dear Customer:

According to our records, it is time for the annual test of your Backflow Prevention device. This assembly is installed on your water service or within your plumbing or irrigation system. The test is required by Chapter 28 of the El Centro City Code and Title 17 of the State of California Administrative Code.

A successful test of the device must be completed by a certified tester and the results sent to this department on the enclosed test report form (or approved equal). The test results must be received by our office no later than the due date indicated above.

We will be happy to verify if the tester you have chosen is properly certified and approved by this office. A list of certified testers is included with this letter.

If you have any questions, please write to 307 West Brighton Avenue, El Centro, Ca. 92243 or call this office at 337-4575. Your prompt attention to this matter would be greatly appreciated.

Sincerely,

Hector Muñoz
Cross Connection Control Specialist
