RE: Backflow Prevention Testing

Dear Sir or Madam:

The following backflow prevention assembly installed in your water supply system is due for annual testing as required by State law and City Ordinance 13.06. Please have this test performed by a Certified Backflow Prevention Assembly Tester possessing a valid Certificate of Competence issued by the American Water Works Association or American Backflow Prevention Association.

130 E. Tulare St., Dinuba

MAKE, MODEL, SERIAL NO, SIZE	LOCATION
------------------------------	----------

WILKINS, 975XL, 2241019, 2"	East side of building
-----------------------------	-----------------------

If the test discloses that the assembly is not operating satisfactory, please have the necessary repairs made and the assembly retested by a certified tester. On completion of a test showing that the assembly is operating satisfactorily, mail the Test and Maintenance Report form completed by your tester to Dinuba Public Works, Utility Department, 405 E. El Monte Way, Dinuba, CA 93618 or fax to 591-5923 no later than **May 04, 2010**.

The administrative fee for the program of \$12.00 per assembly will be billed to your utility bill.

Additional information regarding this matter may be obtained by contacting Dinuba Public Works at 591-5924
Thank you for your attention in this matter.

Sincerely,

Christy Martinez
